

## WHAT MAKES A SAFETY CABINET SAFE?

Highly visible HazAlert™ reflective label in English, Spanish and French

Fusible links (on self-closing models) melt at 74°C for automatic closure

Fully welded 1mm double wall steel construction for a longer life

Chemical-resistant, lead-free powder-coat paint finish inside and out

Dual vents with built-in flash arresters placed at bottom and opposite top

Adjustable leveling feet for balancing cabinets on uneven surfaces

Piano hinge and self-indexing provides smooth closure of doors in sequence

Self-latching U-Loc™ handles with double key set or can be padlocked (padlock not included)

Stainless steel 3-point bullet self-latching system for positive door closure

Welded shelf hangers interlock with shelves for "nonslip" stability

SpillSlope® safety shelves direct spills to back and bottom of leakproof sump

Built-in grounding connector for easy grounding (ground wire not included)
