

HOW TO BUY

1. Select a type of barrier (Single or Twin Rail)

2. Select a type of finish - Powder Coated or Galvanised and Powder Coated

3. Decide the layout you require and add at least 2 End Posts to the Basket

4. Add Centre and corner posts to the basket to make up the layout you require

5. Add the horizontal rails to your basket. You will need to add enough rails to connect all the centre, corner and end posts together. If you decide on the twin rail you will need double.

Example of a modular barrier system:

To order you would need- 2 x End Posts, 1 x Centre Post, 1 x corner post, 6 x horizontal rails.
